

## **PROFESSIONAL CREDIT**

Neither NEH nor the MTHM can award you academic credit, but MTHM is empowered by the Connecticut State Department of Education to issue you a certificate for 3.5 Continuing Education Units (CEU) after you successfully complete the workshop. Other states may accept Connecticut CEU's, but you will need to check with your local district or state department of education to find out how you initiate the process for having your Connecticut CEUs credited to you in your own state. I will also be happy to provide you with further documentation about the professional development you will derive from our workshop if required by your own local or state administrators.
